## *In The Name Of God*

Greetings and Regards,

Dear colleagues and consumers, please pay attention to some important points in price segment of the Hekmat Industrial Complex, in order to provide you with the best services.

1. Since in Iran's markets the prices of hydraulic fittings are competitive, the price of this set is always updated and never will be permanent. Therefore, always check prices before any order.
2. All prices are in cash, so dear buyers need to settle the total amount of their invoice before delivery.
3. All the purchased goods which are not made are reversible for any reason in 30 days, but after 30 days we won't accept any excuse.
4. Hekmat Industrial Complex is consisting of 20 thousand different goods. In this part there are less than 1000 goods which are most used ones in Iran's market. You can also enjoy the other 19000 goods which are not mentioned here.

Thanks and regards

Ahmad Nikfarman Motlagh
